**Etiquette Dinner!** Each year Career Services teams up with the New England Culinary Institute to host an etiquette dinner for Vermont Tech students. This event aims to teach fine dining skills to students who may very well end up in a lunch or dinner interview during the spring semester. 25 students came dressed in their interview clothes and were treated to a four course meal covering everything from soup (literally) to nuts. Topics covered included: being seated, napkin use, use of silverware, and cross cultural dining to name a few. This year's lucky students included seniors from the Electromechanical and Civil Engineering majors. This is the fourth year Career Services has run such as event and it has been enthusiastically received by students.
