POSITION ANNOUNCEMENT

Position Title: Assistant Professor – Mechanical Engineering Technology
Full-time, tenure track, VSC-VSCFF

Location: Randolph Center

Responsibilities: Teach at the undergraduate level in the areas of mechanical engineering technology including but not limited to manufacturing, machine design, fluids, thermodynamics, kinematics and dynamics, computer-aided design, and automation.

The candidate will be expected to serve the college community by participating in committees, student advising, and assessment activities intended to maintain accreditation.

Note: Additional information about the Mechanical Engineering Technology program and Vermont Technical College may be viewed at the Vermont Tech website, www.vtc.edu.

Qualifications: Master's degree or B.S. degree and PE license required. Candidates are expected to be knowledgeable in the core areas of mechanical engineering as well as manufacturing processes, solid modeling (Solidworks or similar), and computer-aided manufacturing technology (CNC, rapid prototyping, etc.), automated systems, production methods. Prior teaching experience is desirable.

Starting Date: August 2016

Application Deadline: Applications will be accepted until April 22, 2016.

To Apply: Submit Vermont Tech employment application, cover letter & resume to jobs@vtc.edu. Employment application is available on the Vermont Tech website: www.vtc.edu/employment.

NOTE: This job is subject to a fingerprint-supported criminal background check. Any offer of employment is contingent upon the satisfactory results of this check.

Vermont Tech strongly encourages applications from members of ethnic minority groups and other under-represented backgrounds. Vermont tech is an Equal Opportunity Employer and a member of the Vermont State Colleges system. In compliance with ADA requirements, we will make reasonable accommodations for the known disability of an otherwise qualified applicant.
