501(c)(3) Charitable Organization

Thank you so much for your interest in Safeline! There are many types of volunteer opportunities with Safeline.

- **Hotline Volunteer** – Answering calls on our toll free number. We provide extensive training for hotline volunteers. By using available pagers, answering hotline calls is flexible and convenient, and you can easily and safely respond from your own home. When a volunteer is covering a hotline shift, Safeline staff are always available for backup with any questions or concerns.
- **Community Outreach** – Several types of activity fall within community outreach. We are always trying to better inform our communities about Safeline, our resources, and also about the issues of domestic and sexual violence. We frequently need help with distributing posters, brochures, etc. throughout our area, and also with setting up and staffing tables or displays at area fairs and various community events.
- **Building Maintenance** – This category includes cleaning, mowing, small building repairs and various types of yardwork.
- **Clerical or Computer Work** – We often need help in our office with various clerical functions such as copying and collating materials, stuffing or addressing envelopes, maintaining our website, etc.
- **Fundraising** – At various times, we do fundraising events such as our annual appeal, raffles, etc. We also need help gathering signatures on petitions for town appropriation requests or in having representatives who could provide information about Safeline at the annual Town Meetings.

We would love to talk with you further! Please feel free to contact us with any questions or comments you may have.

Best regards,
Judy Szeg
